9 9 9 9 new slide sets

in natural color for your lessons in Natural Science

Belted Kingfisher

These new teachers' slide sets are designed to be a quick, effective way for you to put accurate pictures of Natural Science where all your class can see them at the same time. Count on them to add interest to lessons; use them to focus attention exactly where you want it. They are the next best thing to reality.

National Film Board color slides are in 2" x 2" cardboard mounts that fit the slide-changers common to most filmstrip projectors. What each slide shows is printed in both English and French on the cardboard mount. No words appear on the screen; the teacher or the children name what is seen. Because names are provided in both languages, the versatility of these slides is increased.

Garden Flowers

two sets of ten slides each

Hawks

a set of ten slides

Cold-blooded Animals

a set of ten slides

Summer Birds

two sets of ten slides each

Spiders

a set of ten slides
